PROFESSIONAL PROFILE

Musical Informatics Technologist with extensive experience in the technical production of large-scale events, artist tours, theater and stadium concerts, and high-profile corporate events. Focused on technical excellence, advanced sound console operation, and stage coordination, I am committed to ensuring flawless execution in every project. Recognized for strong professional ethics, punctuality, and leadership skills that foster effective communication and teamwork. Passionate about continuous growth and highly motivated to build a career in each new project I undertake, I aim not only to contribute my skills but also to learn and evolve with every opportunity. With a proven ability to work under pressure and solve real-time issues, I consistently prioritize quality and client satisfaction.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Sound Consoles:** Digico SD, Avid, Yamaha, eMotion LV1.
- **Audio Software:** Ableton, Reaper, TrackLive, SuperRack, Waves, ArrayCal, R1, Qlab, Workbench.
- **Technical Proficiencies:** RF Coordination (Shure), Audio/Lighting/Video Signal Flow, Digital Protocols (AES, Soundgrid, Dante, AVB).
- **Stage Management:** Stage patching and connections, World Monitor, World FOH, Technical Staff Management, Equipment Dispatch/Reception, Rigging.
- **Interpersonal Skills:** Leadership, Effective Communication, Problem Solving under pressure, Teamwork, Active Listening.
